## RAILROADS NOT ONLY BIG HELP TO OGDEN

### RAILROADS NOT—REAL ESTATE.

Recently a prominent railroad man, in commenting on the fact that the Lucin trestle over the lake had successfully resisted the efforts of the last storm, said in effect: "The permanency of that trestle means that Ogden will continue to grow. It is another prop under the foundation of this city."

Commenting on that statement, a citizen said to Hunter & Kennedy: "This is not only a railroad town. It is the center of a fine agricultural country, and it is also becoming a manufacturing center."

"Every new factory is another stone added to the foundation of this city, and is another assurance of permanency."

"You real estate men can advertise and get people to come here and buy or build homes, but we must also provide some means whereby those people may make a living."

"They cannot all work on the railroads or live in town and run farms

in the country. Factories, with their payrolls, are what we want."

"We have a goodly number of factories now. Count them. Begin with the sugar factory, which pays out over half a million each year."

"Then comes a long list of canning factories, some right in the city, others close at hand. There are also the creameries and cheese factory, all handling farm products."

"We have also two pickle factories, harness factories, tent factory, overall factories, paint factory, besides flouring mills, planing mills and foundries."

"But we need more factories. Must have them because they mean more payrolls. Besides the railroad situation makes Ogden the proper place for them. From this point their product can be quickly shipped to every part of the mountain country."

"Reading over the list of factories now located here one sees that in nearly every case the stockholders have realized good returns on their investments."

## A COUNTRY BOY AND THE DRAMATIC GERM

It is wonderful how an incident creates the germ that incubates into a play. Some of the biggest successes ever seen on the stage grow out of some slight incident picked up by a playwright, and made into a dramatic vehicle that afterwards attracted world-wide attention.

How Edgar Selwyn picked up the incident that grew into a one-act sketch and thence into a play which Henry B. Harris will produce early this coming season under the title of "The Country Boy," is worth recording. "Lobster a la Newburg" and "Chicken on Casserole" were not on the daily bill of fare handed to Edgar Selwyn when he was living at a little boarding house on Fifty-first street, New York. At this time he had not made his hit as Tony in "Arizona," nor had he written a play that brought four-figure checks weekly from managers' offices in return for royalties, nor had he been elevated to stardom. One day in this little typical

New York boarding house something happened that seemingly soon after was forgotten. Ten years passed when he was called upon to contribute a one-act sketch to a Lamb's Gambol, and this incident was resurrected from its lodgment and made into a sketch that turned out to be one of the biggest successes ever produced at one of these events.

There were four characters in the one-act sketch—a chorus girl, a newspaper man, a landlady and a country boy—played respectively by Joseph Toohy, Frank Sheridan, John Daly Murphy, and Donald Brian. Henry B. Harris, who is also a Lamb, witnessed this gambol, and immediately after the performance suggested to Selwyn that he elaborate his sketch and make it into a play. Mr. Selwyn agreed and immediately set to work. Now the play is completed, and Mr. Harris will produce it early in September. Such is the story of the growth of a dramatic germ.

## GREAT SUCCESS IN LOCAL TRADE

### Popular Confectionary Business the Growth of the Best Commercial Methods

In nearly every case progressive citizenship attends up to date business methods. One of Ogden's confectioners buys his ice in carload

lots, the daily consumption being one ton per day. Electric machinery is used in the manufacture of his products, the ice cream freezer making twenty gallons of ice cream every ten minutes. Recently he sent to Denver and procured a pastry maker who is conceded to be one of the best in his trade. Since that time he engaged the services of an expert confectioner from Butte, Montana. These small acts alone added twelve enumerations to Ogden's citizens.

But the primary cause of the great success of Mr. Ward has been, first, the neatness of his stores, 2341 Washington avenue and 356 Twenty-fifth street. The cleanliness of his establishments extend from the entrance to and including his kitchens and basements. It is a pleasure to pass through the stores and discover how your purchases are produced, just what you are eating.

Second, the courtesy and accommodation of his many employees. There is a great deal in how you are treated and how you feel in patronizing any business house. We like to go to the "natural" place.

Third, The values received. Wholesome, clean, tasteful products in full weights are a firm's greatest business getters, and secure permanent patrons.

Fourth, The general refined taste and appointment of his stores. Expensive fixtures with close attention to the comfort of the patrons.

Fifth, Mr. Ward has developed his business from a very small beginning. The needs of the patrons have been studied and provided. His business has been erected upon the foundation of character, integrity, close attention to details and optimism.

Bakery goods, fine confectionery, ice cream and light lunches are some of the things C. W. Ward's two stores serve to the public. The wholesale field was recently invaded by the firm and they are now receiving a very gratifying portion of that class of business.

### PLEASANT READING FOR THE FAT

What a simple and inexpensive solving of the fat woman's problem the Marmola Prescription Tablets provide. She takes one of these harmless, pleasant, little tablets after each meal and at bedtime and loses from 12 to 16 ounces of fat each day, and yet suffers no harm, creates no disturbances inwardly, and produces no wrinkles. This elegant preparation (made exactly in accordance with the famous Marmola Prescription) has rendered exercising and dieting for the reduction of excess flesh as superfluous as a fifth wheel. A further recommendation is that it is the least expensive fat reducer on the market, a large case, costing only 75 cents from any druggist or by mail from the Marmola Co., 1121, Farmer Bldg., Detroit, Mich., containing a quantity of tablets large enough to give very decided results in most every case.

### QUIET PREVAILS AT THE WESTVILLE MINE

Danville, Ill., May 7.—A heavy rain, which set in at daybreak, tends to curb any turbulence among the Westville miners, and the forenoon was quiet, the only event being the speech of President Walker of the Illinois Federation of Miners to the men.

In this speech the leader counseled peace and patience until the result of the conference between the union officials and the operators could become known. The troops remain on guard at No. 2 shaft, and there is no indication as to how long they will stay.

### DUFFY THINKS SOX WILL WIN.

"The White Sox are out to win the pennant," says Hugh Duffy. So are seven other clubs. But Duffy adds that "the White Sox are going to do it," and therein he has it on the seven other managers.
